

BLACK MEN DESERVE TO BE HEARD

Looking for men who use drugs to share their story

UMSL is doing a study to understand & amplify experiences of Black men left out of conversations about drug use & overdose in St. Louis.

What we learn will help improve drug use services for Black people.

You may be eligible for this research study if you are:

- Over the age of 18
- A Black man
- A current opioid user

Participants will receive:

- Gift card
- Overdose prevention kit

Participation includes a conversation:

- About experiences with drug use, treatment & overdose
- With peer researchers, including community advocates & people in recovery
- Scheduled around your time
- That lasts around 1 hour
- That will be kept confidential
